

Dear,

I would like to personally thank you for choosing Riverside Medical Center for your healthcare needs. You can be confident that you made the best choice. At Riverside we are proud of the quality of our programs and services. In 2014, Riverside Medical Center was named one of the nation's 100 Top Hospitals by Truven Health Analytics.

As we celebrate our 50th anniversary, the communities we serve remain at the center of all we do. Our founders foresaw the need to provide our region the highest level of primary and specialty care available. With their vision in mind, we aspire to continue their mission to build healthier communities and provide the highest level of quality healthcare for our patients and their families.

That is why today, I am asking you to consider making a personal gift to Riverside Medical Center to support our healthcare programs and services. We sincerely thank you for your loyalty to Riverside Medical Center. With your contribution you can join others whose generosity has resulted in so many advances and accomplishments that benefit our service area. Below are a few examples.

- We are saving cancer patients daily trips to Chicago by purchasing one of just three of the most advanced TruBeam linear accelerators in the state of Illinois. This new equipment acts as an extremely targeted scalpel, delivering radiation to only the affected tissue, even adjusting for the movement of a patient's breath.
- We are opening doors for seniors with memory disorders by breaking ground on Sojourner's Memory Care Center. This state-of-the-art facility offers 80 beds and expanded access to the next generation of advanced senior care. We open in early fall of 2014.
- We are localizing exceptional care for your families and employees by opening 25 community health clinics. These centers serve regions with previously limited healthcare access- providing an estimated \$1.6 million community benefit in 2012 alone. We are where you go for quality care.

Your generous donation will help assure that our region will continue to have a comprehensive and advanced range of healthcare services. I hope that you will consider making a donation today.

Sincerely,

Phillip M. Kambic
President and Chief Executive Officer
