

Our relationship with you, our valued patient matters most.

If your experience with Scripps Health was rewarding, consider celebrating your Scripps Moment through a gift to our grateful patient program.

Dear NAME:

In most aspects of life, it's our relationships with other people that matter most.

When it comes to our health, for example, we want clinicians who deliver first-rate care, but also interact with us as people, not just patients. We want administrative staff that readily accommodates our needs by taking the few extra minutes to really listen. These small, simple acts can translate into a reassuring, positive, experience that enriches the rest of our lives.

All of us at Scripps Health take great pride in both our state-of-the-art clinical care and the warm, compassionate way it is delivered. I hope you have experienced for yourself what that means.

Others have recognized our quality of our care as well, which is why Scripps has been named one of the top 15 health systems in the nation, singled out for our outstanding care in:
Heart • Urology • Gastroenterology and GI surgery • Orthopedics • Gynecology • Geriatrics

Our entire staff works hard to make your visits as easy, comfortable and healing as possible.

Sometimes, even amid a group of professionals as skilled and dedicated as those at Scripps, one or two stand out as truly exceptional, and that's why I'm writing today—to tell you about a very special way you can recognize and thank the men and women of Scripps who have touched your life.

By making a generous gift in their honor to the Scripps Health Foundation, you can tell a Scripps physician, nurse, orderly, receptionist and/or other staff member just how much you appreciate them. Your contribution, of any amount, will provide financial support for our highest priorities at Scripps Health, assuring us the resources we need to continue providing the same outstanding healthcare you know to all who need us.

But equally important, acknowledging stellar Scripps employees in this way will convey just how meaningful your honorees' contributions are to the health of their patients and inspire them to continue making an extra effort to provide the superb care that Scripps Health is renowned for.

These remarkable men and women have made a difference in your life. Now you can make a difference in theirs. I hope you'll consider making a gift to Scripps Health Foundation as a tribute to them. I guarantee it will literally make their day. Please include a few sentences on the form below describing your Scripps Moment which led to your gift.

Sincerely,

John B. Engle
TITLE

P.S. In addition to your generous contribution, don't forget to fill out the attached card to tell us why you're making the gift. We will share it with the Scripps employee or employees you are honoring, so they know just how much you value them!
